

Jetwave Wireless Summer Internship Overview

Hands-on Experience in Wireless Audio & Communications

About Jetwave Wireless

Jetwave Wireless is a production-level wireless audio and communications company serving high-profile clients across entertainment, broadcast, and live event industries. Our three core departments—Live Events and Rentals (LER), System Installation (SI), and Custom Products and Repairs—work together to deliver cutting-edge audio solutions for clients including Fox, CNN, Disney, and major music festivals.

Internship Role Summary

As a Jetwave intern, you'll gain real-world experience in all three departments, rotating based on project needs and your performance, though your experience may vary depending on company needs. This is a highly practical, workshop-based internship designed to prepare you for careers in production audio, technical repair, and systems integration. Interns who show initiative and interest in a particular area can request additional time in that department to deepen their skills and gain more focused experience.

Departmental Rotations

Custom Products & Repairs

- Make and test cables (XLR, BNC, SMA, etc.)
- Learn soldering, wire stripping, and cable termination
- Assist with manufacturing custom RF products (amplifiers, splitters, combiners)
- Perform basic repairs on rental and customer gear
- Learn to 3D print and apply it to custom manufacturing tasks

Live Events & Rentals (LER)

- Assemble, sync, and test RF audio equipment racks
- Scan and check equipment before and after shows
- Learn equipment troubleshooting and show prep logistics

System Installation (SI) (Advanced placement)

Rare opportunity for on-site studio installations in DC or New York

Assist with wiring, mounting, and configuring studio systems

Offered only to high-performing interns who show readiness and professionalism

Ideal Candidate

- Strong interest in audio, electronics, or live events
- Hands-on mentality and willingness to learn
- Familiarity with soldering or audio gear is a plus—but not required

What You'll Gain

- Resume-worthy industry experience
- Hands-on technical skills
- Professional exposure to top-tier clients
- Mentorship and training from experienced technicians
